Silver Spring, MD – October 11, 2016 – The State of Utah, in conjunction with National Association of State Procurement Officials (NASPO) ValuePoint, announced A&T Systems, Inc. (A&T)—an Advanced Consulting Partner and Government Competency Partner in the Amazon Web Services (AWS) Partner Network (APN), Authorized Government Reseller and Value Added Reseller—as the awardee of NASPO ValuePoint Master Agreement for providing AWS Infrastructure as a Service, to State and Local Governments, Healthcare Organizations, K-12 and Non-Profits. This contract is effective immediately and valid for period of ten (10) years, through September 2026.

**Infrastructure as a Service (IaaS)**, as referred to in this Master Agreement, is the capability provided to the consumer to provision processing, storage, networks, and other fundamental computing resources as well as deploy and run arbitrary software, including operating systems and applications. In this type of arrangement, consumer does not manage/control the underlying cloud infrastructure but instead controls operating systems, storage, deployed applications, with possibly limited control over select networking components (e.g., host firewalls).

**NASPO ValuePoint** is the NASPO ValuePoint Cooperative Purchasing Program, facilitated by the NASPO Cooperative Purchasing Organization LLC, a 501(c)(3) limited liability company (doing business as NASPO ValuePoint). It is a subsidiary organization of NASPO—the sole member of NASPO ValuePoint. NASPO ValuePoint facilitates administration of the cooperative group’s contracting consortium of state chief procurement officials and benefits the state departments, institutions, agencies, and political subdivisions and other eligible entities (i.e., colleges, school districts, counties, cities, some nonprofit organizations, etc.) for all states and the District of Columbia.

A&T’s AWS Cloud Practice is made up of a community of highly experienced cloud architects and engineers who provide usage, governance, DevOps guidance, managed services and cloud consulting to government clients such as the Department of State, U.S. Geological Survey (Department of the Interior), District of Columbia Health Benefit Authority (DCHBX), National Nuclear Security Administration (NNSA), National Institutes of Health (NIH) and others. We provide more than 40,000 AWS Contract Line Item Numbers (CLINs), Cloud Managed Services, AWS Marketplace offerings and Consulting Labor Categories.

A&T's DevOps Services helps organizations with Best Practices for Agile development on an AWS infrastructure. Our Managed Services help customers with the AWS Shared Responsibility Model where we deliver services for cloud governance, security, patch management, compliance management, operations & maintenance, log management, architecture, 24x7 monitoring, backup & storage, disaster recovery, optimization, and migration.

Please Contact A&T ([sales@ats.com](mailto:sales@ats.com)) to sign a Participating Addendum for your organization to take advantage of these Cloud Services.

### **About A&T Systems**

A&T Systems, Inc. is an IT and Telecom Infrastructure Solutions company with deep expertise in managing Cloud Computing and Mobility requirements. It is an AWS Advanced Consulting Partner, an AWS Government Competency Partner and an Authorized Government Reseller Partner/VAR that holds AWS' Letter of Supply for all AWS CLINs on its GSA Schedule 70 and contracts, as a small business. A&T is authorized to provision and operate workloads in the GovCloud (US) Region. A&T supports and is a technical consultant and advisor for cloud implementations in multiple organizations architecting and providing Governance with AWS cloud services for a variety of workloads including enterprise applications, high-performance computing, analytics, storage, maintenance and monitoring, backup, disaster recovery, and web & application. **For more information, visit [www.ats.com](http://www.ats.com).**
