

A&T Systems Awarded IMCS II Contract

Date: November 1, 2008

Contract to support Army-wide IT and Telecom Services at 93 different bases

SILVER SPRING, MD, November 1, 2008 -- A&T Systems, Inc. announced that it has received award from the United States Army ITEC 4 (West) Office for an Indefinite Delivery Indefinite Quantity contract vehicle to provide communication systems operation and maintenance (O&M) services to potentially 93 Army Directorates of Information Management (DOIMs).

Under the **Information Management Communications Services II (IMCS II)** IDIQ contracting vehicle A&T Systems will provide a range of support services, including:

Administrative Telephone Services (ATS)

- Switchboard Console Operations
- Inside/Outside Plant
- Customer Service

Information Technology Services

- LAN Administration
- System Maintenance
- Help Desk Assistance
- Software Installation
- Hardware and Software Troubleshooting
- Web Master Support

Video Teleconferencing (VTC) Support

Defense Message Switching Operations

Technical Control Facility Operations and Maintenance

Installation Infrastructure Configuration Management including CAD

Engineering Support

Land Mobile Radio Network Management and Control System Management

“This contract allows us to bring our IT and Telecom services to a much broader set of customers within the Army, which is already one of our largest customers,” said Dr. Ashok K. Thareja, CEO of A&T Systems, “It is very exciting to add this important Army-wide contract to the portfolio of our other contracts.”

This ITEC4-W Indefinite Delivery Indefinite Quantity contract vehicle will provide communication systems operation and maintenance (O&M) services to potentially 93 Army Directorates of Information Management (DOIMs).

This \$500M contracting vehicle is available to all 93 CONUS Army DOIMs.
